Mendocino Coast Pediatric Medical Group affiliates with Mendocino Coast Clinics

Mendocino Coast Pediatric Medical Group (MCPMG) will affiliate with Mendocino Coast Clinics (MCC) effective July 1, 2011. For over 30 years MCPMG has been entrusted to provide quality and friendly medical care to coastal children, from newborns to young adulthood.

“This decision to affiliate with MCC has involved a comprehensive and thoughtful process”, said Bill Mahon, MD. As the practice of medicine has changed with technology, regulations and requirements, this opportunity will give the MCPMG team more time to focus on patient care and less on nonmedical issues. While change is always challenging, I believe this will enhance comprehensive health care for the community”, he added.

Patients will continue to have their visits at the 510 D Cypress Street facility with the same efficient and compassionate staff. Office hours and days will also remain the same, so patients will receive seamless services without interruption.

“I am excited to partner with MCPMG, as it will offer Mendocino Coast Clinics the opportunity to provide the community with a full array of services, said Paula Cohen, MCC Executive Director. “Since MCC provides the perinatal and obstetric care for the coast, serving newborns and children will provide continuity. Additionally, the MCC Teen Clinic and outstanding adolescent services of MCPMG will complement each other and give even better support to our youth,” she added.

Mendocino Coast Clinics is a nonprofit organization providing quality medical, dental and behavioral health care to coastal residents for the last 17 years, regardless of their ability to pay.

Pediatric care can still be accessed by calling 964-5696. Additionally, patients can also access services by calling Mendocino Coast Clinics at 964-1251.
